

This listing of the claims will replace all prior versions, and listings of claims in the application.

**In the Claims**

1. (Currently Amended) A system for performing sales transactions online comprising:

a database;

said database containing [of a profile] information about various sales agents;

said database containing [of] information about each user;

said database [being capable of] communicating with said user either orally or in writing.

2. (Currently Amended) The system of claim 1 wherein said sales agent comprises a three-dimensional representation of a [sales agent] person.

3. (Original) The system of claim 1 wherein said information comprises information about a user's personal life, and information about a user's business activities.

4. (Original) The system of claim 1 wherein said database records each sales transaction completed.

5. (Original) The system of claim 1 wherein said profile comprises physical characteristics of said sales agent and/or educational history, and/or business style.

6. (Original) The system of claim 1 wherein said communication can be via e-mail, a web site, palm pilot, cell phone, or other wireless means.

7. (Original) A method for performing sales transactions online comprising;

- logging into a database;
- entering a password or other information that can be identified by said database;
- choosing a virtual sales agent from the database by either entering characteristics of a sales agent into said database or clicking on a virtual sales agent provided by said database;
- providing information to said virtual sales agent about a product or service a user wants to purchase.

8. (Currently Amended) A method of performing a sales transaction online comprising:

- providing information to a computer database, said information comprising information about a clients personal life, past business transactions, and information about products comprising price, quality and quantity;
- logging into said computer database by said client;
- determining where said client is logging in from;

providing information to said client [a user] through said computer database concerning the [user's] client's personal life;

providing information to said [user] client through said computer database concerning past business transactions;

providing information to [a user] said client through said computer database comprising price, quality or quantity information for products for sale.

9. (Original) The method of claim 8 wherein said information is provided via e-mail, a web site, palm pilot, cell phone, or other wireless means.

10. (New Claim) The system of claim 3 wherein said user's personal life comprises information about said user's family, hobbies, where said user lives, and sports teams liked by said user.

11. (New Claim) The system of claim 3 wherein said user's business activities comprise types of purchases said user has made, sales range of goods or services user has made in past, delivery, shipping and billing information.

12. (New Claim) The method of claim 8 further comprising:  
providing weather information to said client based on where said client has logged in from.

13. (New Claim) The method of claim 8 wherein said past business transactions comprise whether current orders have been received.

14. (New Claim) The method of claim 8 further comprising:  
providing further information to said computer database by said client in relation to information provided to said client.

15. (New Claim) The method of claim 14 further comprising:  
providing information to said computer database in relation to information provided by said client.
